PARKING ADVISORY

The map and directions listed below will help you find routes to Dicks Sporting Goods Park OTHER than directly off I-70 and Quebec. Since opening on April 7th, 2007 we have found that a large portion of our guests use Quebec due to its high visibility and access to the venue. Overuse of this single roadway can overload the roadway system and lead to longer ingress and egress times.

The map and driving directions below are suggested alternate routes into the property that may be helpful for your arrival and the overall ingress and egress distribution of vehicles.
